WDS

Cleaner, softer, and longer lasting linens

Ozone Water Disinfection System (WDS) improves washing results, helps sanitize linens, and helps keep laundry machines mildew and odor-free. WDS helps reduce the usage of chemicals and energy. By simply connecting the unit into the existing water input, the system will turn ordinary tap water into an effective and safe sanitation solution.

Ozonated water acts as a natural sanitizer for improving hygiene and reducing cross-contamination. The WDS will improve laundry and machine sanitation while naturally eliminating odors.

### Inspired by nature

Turns tap water into an effective and safe sanitizer

## Safe to use

After sanitation ozone returns to water and oxygen

Flexible

Integration for multiple washers

### Automatic & on-deamnd

The WDS supplies automatic ondemand odor elimination and sanitation
